Leading Change from Waste to Resource

Creative space connecting people, ideas and resources

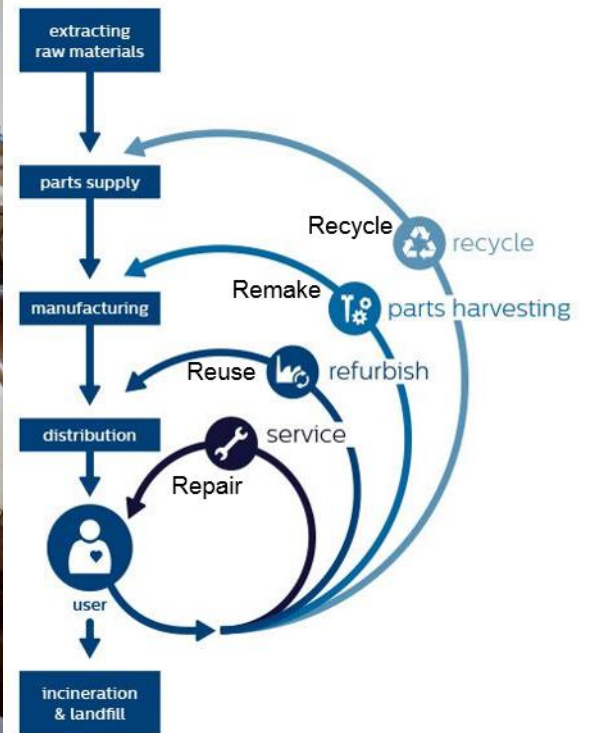

Est. 2004 Ballymun Regeneration Ltd

- *Reuse social enterprise*
- *Behaviourial change*
- *Skills training*
- *Education for Sustainable Development*

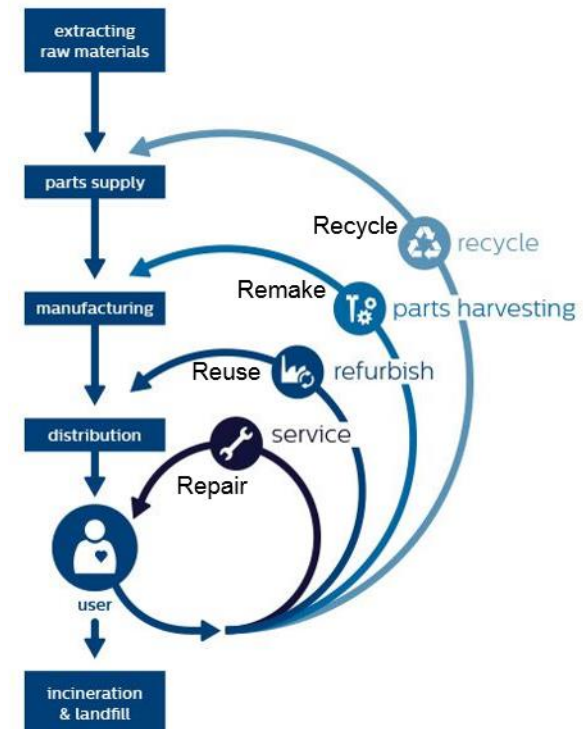

Adopted CE principles

- Maximising (*Rediscovering*) Value
- Designing out waste
- Regenerative & Restorative practice
- Differentiating between consumable and durable components
 - Consumables – sustainable, natural, biodegradable, non toxic
 - Durables – built for reuse and cascading
- Fuel for the cycle is renewable

Value Creation

Building Capacity & Changing Behaviour

Supporting Innovation

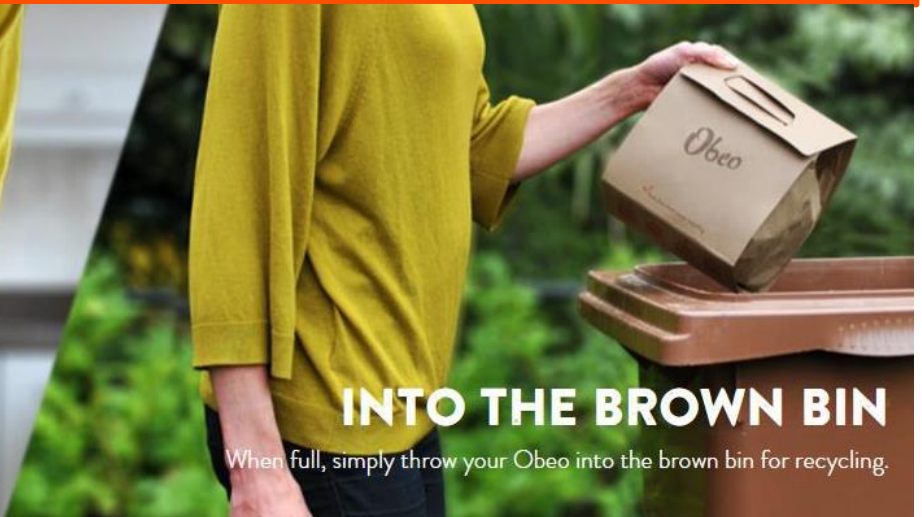

FROM YOUR KITCHEN

Pop open on your kitchen worktop and fill with your peelings and leftovers.

INTO THE BROWN BIN

When full, simply throw your Obeo into the brown bin for recycling.
