Role of Data for Better Resource Efficiency – CTC experiences

TADHG COAKLEY CLEAN TECHNOLOGY CENTRE, CIT

ENVIRONMENTAL DATA: PRIORITIES AND INNOVATION NESC CONFERENCE FRIDAY, 24TH APRIL 2015

WWW.CTC-CORK.IE

Data should be Meaningful

- Green Business Programme
- 150 companies have had Resource Efficiency Assessments carried out

GreenBusiness

- Average savings per company:
- €37,000 **per annum**

Meaningful data, what people understand, can lead to change

Data should be Manageable

- Stop Food Waste Programme
- Household food waste: €400 €800 per annum
- Restaurant food waste: €2 €5 per kilo e.g. 200kg of food waste in a week: up to €1000 per week!

Manageable chunks of Data communicated A reference point

Data should be Comparable

Green Healthcare Programme

- Benchmarks between hospitals
- Comparable by factor or identifier Normalisation (e.g. waste per in-patient bed day)

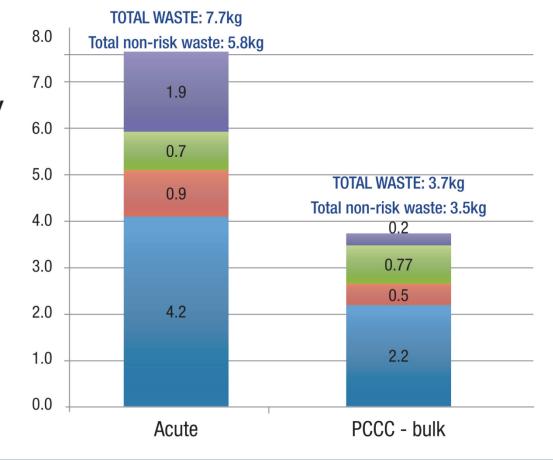

Comparable and Normalised data – a good motivator

Data should be Comparable

kg waste generated per in-patient bed day

- Healthcare risk waste
- Food waste
- Mixed Recycables
- General landfill waste

Data should be Analysed

- It takes time
- It's expensive
- It's hard
- Waste Characterisation data
- Commercial water use

Data should be Accompanied

- Household cleaning products a €50 billion industry
- 3% bleaches, 5% soaps, 13% maintenance, 14% dish cleaning, 16% hard surface cleaners, 49% fabric washing.

Local Authority Prevention Network

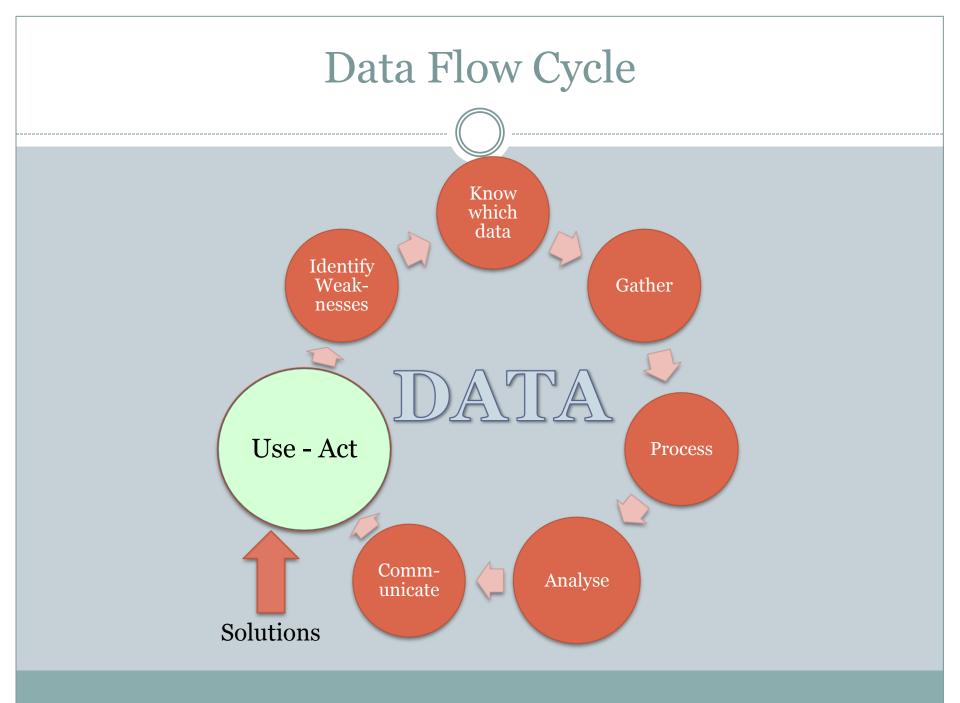

You mustn't do this you Mustn't' do that...

Data should be Accompanied

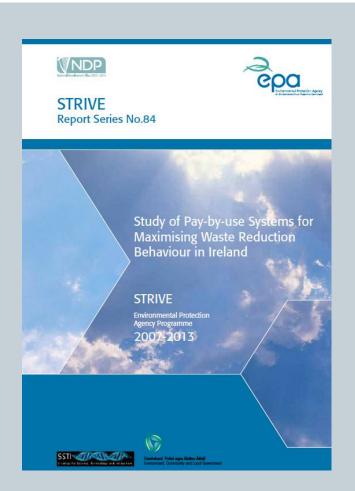

Viable Alternatives – Solutions

Data should be Verifiable

- Research Study of Pay by Use Waste Charges
- 62 data sets for 792,851 households
- Over 50% of all households in Ireland
- Result: Pay by Weight prevents waste
- Credibility

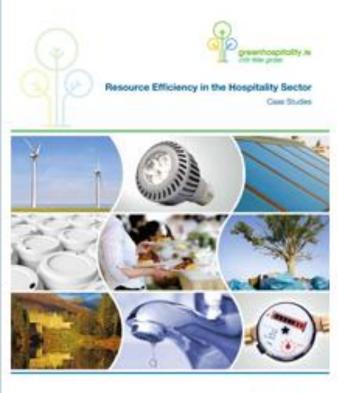

Data should be Significant

- CTC study of cleaning practices
- Across 6 major companies in a sector
- Annual savings
 €130,000 per annum
- 1200 additional production capacity hours

Data should be Utilized

- Disposal paper cups change to reusable cups
- Investment.....€9,000
- Cost Savings....€124,000
 / Annum
- Payback.....Less than 1 month

Data should be Available

- New Research Project
- March 2015 February 2016
- Resource Efficiency in Priority Irish Business Sectors (2014-RE-DS-1)

• We're good on waste

Comhshaol, Pobal agus Rialtas Áitiúil Environment, Community and Local Government

What data do we need?

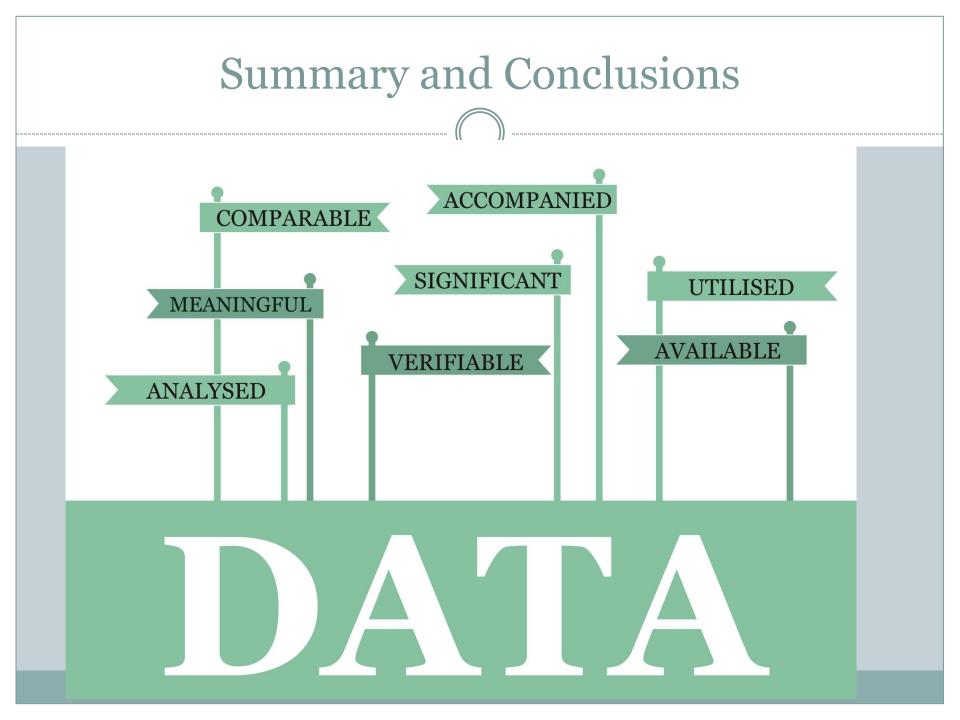

• Fully detailed material flows through

- Ireland
- Sectors benchmarking
- Individual companies
- Processes (cleaning, transport)
- Society (households, communities etc.)
- Financial value data

• Full life cycle data

- Mobile phone example
- o Buildings
- o Transport
- Food
- Etc.
- More Solutions

Thank You

Tadhg Coakley
